

Snow Packet Day 1 (6th Snow Day)

Create a word search using words that are “Snow Day” related for the students to complete upon our return. For example, you could have them find the word, “snowman”. I have provided the template for you. The trick is to go ahead and write in the words you want the students to find, and then just fill in random letters around those words. Good luck!

Snow Packet Day 2 (7th Snow Day)

Create a one-page story to read to the students upon our return, making sure you include the words I provided below. You know they enjoy funny things, so feel free to use humor. You can also write the story on that back of this page if you'd like!

Word Bank:

- snowman
- melted
- scarf
- cold
- ice
- snowflake
- sleep
- snow plow
- frost bite
- hot cocoa
- gloves
- puppy
- school
- fell

Snow Packet Day 3 (8th Snow Day)

Create your own, or tell me about a game that you could play with the students, that is educational. For example, the game UNO uses numbers as well as memory recognition with having to remember the rules, numbers and colors you have, and when to say "UNO". These games could be something we potential play on an earned Free Friday. You can just write your game and instructions, and how it is educational on this sheet of paper if you'd like!

Snow Packet Day 4 (9th Snow Day)

Write a 1 paged paper about your snow day! I want to know things like what time you woke up, what you ate for breakfast, what the weather was like, etc. Try to incorporate as much detail as you can. You are welcome to use the back of this sheet of paper if you'd like!

Snow Packet Day 5 (10th Snow Day)

Write a 1 paged paper on how you feel about doing snow packets on snow days. Remember, completing these snow packets, prevent you from going longer in the Summer. Tell me if you thought they made the right call with all the times they have called off for snow days, or if you could have made it to school. Remember, some people live far out in windy backroads. You are welcome to use the back of this sheet of paper if you'd like!
