2/5/21

We have been made aware that there has been a positive case of COVID-19 from a student at Robert Bland Middle School and a student at Lewis County High School. We are working closely with the local Health Department to contact any and all individuals who were possibly exposed and may need to be tested or quarantined. Lewis County Schools and the Lewis County Health Department will continue to monitor this active case and give announcements, as necessary and will stay in contact with all others involved to provide the best public health outcome for our community. As always we ask that you stay vigilant at this time, and to continue to practice the precautions that have already been established; thorough washing of hands, wearing a mask, and social distancing.
